## **Report on Sapling Plantation Competition**

*"It is said that the one who plants a tree plants a hope."*

*Keeping the hope and spirit of Van Mahotsav alive with the ongoing scenario across the country St. Montfort School organised online sapling plantation competition on 2nd July 2021 for their kindergartners. The students of Nursery, K.G. I and K.G. II actively participated in the competition by planting a sapling in their homes and gardens, simultaneously highlighting the significance of trees in our lives through a video. Children understood the importance of trees and took responsibility over their shoulders to plant more and more trees in order to keep our earth as green as it was for our sustainability. As to restore the eco balance, afforestation drive was taken with all seriousness by our little ones with a pledge to work towards the sustainable development and leave the resources for the future generations to enjoy too.*

*Winners of the competition were felicitated with e-certificates as a token of appreciation. It will now be the duty of students to take care of the saplings they planted as their family member. This activity will be inscribed in their memories and will make them a responsible and aware human being.*
